Renewable Energy Certificate Solar Water Heater Assignment Form

About RECs

Renewable Energy Certificates (RECs) can be created by owners of solar water heater or heat pump systems. RECs are produced under the Australian Government's Mandatory Renewable Energy Scheme (Renewable Energy Electricity Act 2000) which seeks to encourage additional renewable energy production and provides an added incentive for customers installing a renewable energy system. For more information about RECs and the Renewables Scheme refer to Green Energy Trading's web site: www.greenenergytrading.com.au Green Energy Trading is a registered REC Agent and can create RECs when assigned by the system owner.
